

## A Handy Guide to Resources for Bivalve Depuration Businesses.

Prepared June 2021

- [Bivalve shellfish purification](#)
- [Hygiene](#)
- [Marine Biotoxins](#)
- [Delivering Safe Bivalves to the Market](#)

The above pages have updated content, and within them you'll find links to a number of new / updated pre-existing bivalve-related guidance documents. For convenience, these are listed below, along with the Seafish link. This link takes the user to a Seafish page from where the PDF version of the document can be downloaded:

- Amnesic Shellfish Poisoning (ASP) - <https://www.seafish.org/document/?id=5268CE08-C45F-442C-A25B-0536E91AC977>
- Azaspiracid Shellfish Poisoning (AZP) - <https://www.seafish.org/document/?id=3271BB9B-0100-45CF-91E7-D6C8535054D8>
- Diarrhetic Shellfish Poisoning (DSP) - <https://www.seafish.org/document/?id=82163008-94BA-4AFF-AB7A-A377C9CAFDED>
- Paralytic Shellfish Poisoning (PSP) - <https://www.seafish.org/document/?id=BAE0B983-3AF2-49F0-A2FA-A22B756202E7>
- Yessotoxin (YTX) and Shellfish - <https://www.seafish.org/document/?id=226FE8AA-DDBE-47AD-89B5-93DA17C5098B>
- Classification of bivalve harvesting and production areas - <https://www.seafish.org/document/?id=08C57880-60EC-4F00-A4E3-D58E1849C029>
- End Product Testing (EPT) - <https://www.seafish.org/document/?id=0C0938F0-EFBE-4A42-8928-07623EFDFB31>
- Safer Shellfish: Biotxin Monitoring - <https://www.seafish.org/document/?id=29F50A52-A176-408E-AAE9-9C3F866C0CBE>
- Oysters and Norovirus - <https://www.seafish.org/document/?id=D8A0689D-2FC5-4F4A-9175-1491922061F0>
