**JOE HEMBROUGH,
28YR OLD TRAINEE FISHMONGER,
*THE MENAI SEAFOOD COMPANY***

I started as a fishmonger and chef with the company two years years ago and since then I have been able to fuel my passion for educating the public about the amazing seafood resources of Wales.

The sea around Wales provides the very best food the sea has to offer - responsibly sourced, fresh and full flavoured fish and shellfish, balancing sustainability with a love of seafood is what matters most to me and the people I work with.

I'm completing a fish and shellfish apprenticeship with Cambrian Training, mastering skills and knowledge from across the industry.

The more I learn about seafood the more I want to pass this knowledge on to others.
