**Accessibility Plan**

We recognise that the Seafood Training Academy website does not meet current expectations regarding accessibility, and we are determined to work towards compliance as quickly as we are able to.

The website itself will be restructured and revised later in 2023 and as part of that work we expect to achieve full accessibility compliance by December 2023.

If there is a particular accessibility issue that you would like us to address in the meantime then please contact one of the various Academy or Network Partners, or email onshore@seafish.co.uk about this and we'll do our best to address it.
